- Does not remove fluoride
- Sanitary cartridge replacement is simple, quick and clean
- Internal filter parts are never exposed to handling or contamination
- No electrical connection required
- Free installation subject to site survey and suitability

The contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used with disinfected water that may contain filterable cysts.
