|------------------------|-------------------|
| Dimensions | 436H 215W 345D |
| Heat up time (minutes) | 30 mins from Cold |
| Power (220V, 50/60Hz) | 2kW |
| Weight | 9.8kg |
| Instant Draw Off | 6 Litres |
| Output Per Hour | 17 Litres |
| Plumbing Requirements | 3/4" BSPM |

Saving Electricity

The AquaBoil CT5 has a built in 7 day timing mechanism which allows you to turn the Boiler OFF during night times and over the weekends. This could save you €50.00 pa in electricity. 1.85kWH consumption in stand-by mode.

Reduced Carbon Production

Every kWh is responsible for producing 530gms of Carbon. As a result of your reduced power consumption, this would translate into a reduction of carbon of 175kg.

Reduced Limescale Build Up

By avoiding unnecessary boiling during the night times, you can also reduce the build up of scale and extend the working life of the boiler in between descaling schedules.

Low Height

The AquaBoil CT5 is only 43.6cm tall to fit under overhanging cupboards.
